Aakash Solanki

Customer Success Engineer

+91 9588882438 Jodhpur aakash91762@gmail.com https://www.linkedin.com/in/aakashsolanki/

Customer Success Engineer with 5+ years of experience in technology, including 3+ years working at the intersection of enterprise customer engagement, technical execution, and account management. Experienced in conversational AI, agentic workflows, REST APIs, chatbot implementation, and cloud-based integrations. Proven track record of expanding account value, improving customer experience and self-service automation, resolving complex technical issues, and supporting product adoption across enterprise accounts.

TECHNICAL SKILLS

- **Enterprise Customer Solutions:** Enterprise Customer Engagement, Stakeholder Management, Customer Onboarding, Product Adoption, Relationship Management, Technical Issue Resolution, Escalation Management
- **Conversational AI & GenAI**: Yellow.ai Bot Implementation, NLP Workflows, Generative AI Development, Agentic AI Workflows, Prompt Engineering, Retrieval-Augmented Generation (RAG), LLMOps
- **Development & Integrations:** Python, JavaScript, HTML, CSS, REST APIs, MySQL, Postman, Git
- **Cloud & Infrastructure**: AWS, Google Cloud Platform (GCP), Microsoft Azure, Docker, Kubernetes
- **Platforms & Tools**: Yellow.ai, Zendesk

PROFESSIONAL EXPERIENCE

Yellow.ai—Customer Success Engineer
June 2023 – Present

- Contributed to a 60% increase in **Shiseido** account value, from $50K to $80K ARR, through the migration of a legacy NLP chatbot to an agentic AI framework.
- Improved CSAT and deflection rates by 15–20% across enterprise accounts, including **Halodoc, Hijra Bank, and Prodigy**, through chatbot UX optimization and payload/API adjustments.
- Increased self-service automation by 40% by designing, testing, and deploying the AAP conversational chatbot workflow.
- Maintained a 90%+ ticket resolution rate within SLA targets across 14+ enterprise accounts using **Yellow.ai platform** tools and **Zendesk** integrations.
- Collaborated with product engineering to resolve 35+ complex bug and feature escalation tickets, helping reduce product friction.
  Led customer onboarding and product training for technical and non-technical stakeholders to support adoption and implementation.

Edvanta Technologies — Web Developer
Dec 2020 – Jan 2023

- Developed and maintained responsive web apps.
- Integrated REST APIs and implemented dynamic User Interface components.
- Worked with backend teams to optimise performance and UX.

Education

Bachelor of Technology (2017 – 2021)
Rajasthan Technical University, Kota
